خطة الدورة التدريبية

AI in ERP Systems and Accounting Software

AI and accounting > Automation and systems

Duration

15 hours

Topics

7

Track

**Automation and
systems**

Certificate

**Certified completion certificate
with serial number and QR
verification**

About the course

The AI features built into accounting systems, and how to switch them on and use them.

Course topics and hours

#	Topic	Hours
1	AI features in common systems	1.5 hours
2	Automatic classification and matching	1.5 hours
3	Forecasts and alerts	2 hours
4	Switching features on and tuning them	2 hours
5	Judging whether they pay off	2 hours
6	When off-the-shelf software is enough and when to build a complementary AI-built tool linked to the ERP	3 hours
7	Building an AI-assisted import and export tool between the ERP and the accountant's own tools	3 hours
Total		15 hours

What you gain

You can make use of the AI features already present in your business's system.

How we teach

- ✓ Clear explanations that start from the basics
- ✓ Examples from real Egyptian and Arab businesses
- ✓ Hands-on practice and exercises after every topic
- ✓ Follow-up and assessment until completion

The complete course handbook

An illustrated handbook that explains every topic step by step, with worked examples, tables, diagrams and exercises, in Arabic and English. Available to trainees once their registration is accepted and their enrolment confirmed.
